PLANT A FEW BULBS THIS FALL AND WINTER

and enjoy the most beautiful flowers during the Fall and Winter months. Our Bulbs are of the very best quality obtainable from our Holland growers, so please do not confuse them with the common 5 and 10c kind. Our business is to sell you Seeds and Bulbs that will grow and prove satisfactory under your soil and climatic conditions. The varieties of Bulbs and Seeds listed herein are all tried and tested and are absolutely reliable and suited to climatic conditions in the Southwest.

GENERAL CULTURAL DIRECTIONS FOR FALL BULBS

Many beginners labor under the impression that there are many difficulties to overcome in order to produce perfect flowers from Bulbs, whereas in reality, no other plants are so easy to manage, none more showy, and none succeed so well under all conditions as do the different classes of Bulbs.

The secrets of growing Bulbs successfully are good drainage, rich loose soil and deep planting. If the soil is of a heavy texture add barnyard manure and sand, but regardless of the texture of the soil, by all means add the manure.

Plant to the Proper Depth. For outdoor planting the best rule to follow is to plant the Bulbs to a depth of at least twice the size of the Bulb. When planting in very heavy soil Bulbs should not be planted as deep as when planted in light sandy soil. When planting in pots and boxes deep planting is not necessary, one-half inch for small Bulbs and one inch for larger ones below the surface is sufficient. When irrigation by means of the use of ditch water is necessary, the watering should be done in such a manner as to keep the soil moist, but not soggy nor flooded. Where flooding cannot be prevented, a light mulch of grass, straw or well-rotted manure will keep the surface soil from crusting.

DO NOT FORGET THE FALL VEGETABLE AND FLOWER GARDEN

Any of the vegetable and flower seed listed here may be planted in the Fall and an expenditure of just a few dollars will give you an abundance of fresh, green vegetables throughout the Fall and Winter season.

TERMS OF SALE: We do not send Perishable Bulbs or Plants C. O. D. unless a remittance of twenty-five per cent of the amount accompanies the order to insure us against loss. Orders from unknown correspondents must be accompanied with full remittance.

HYACINTHS—FOR OUTDOOR OR POT CULTURE.

(Refer to Front Cover for Hyacinth Illustration)

Every home should afford a few hyacinths growing on in pots or a bed of Hyacinths on the front lawn, or better still, a row bordering the walks leading to the house. We take great pride in offering our bulb selection to the public owing to the fact that sizes as quoted are strictly up to standard and labeled true to name; all varieties tried and proven as best adapted to conditions in the Southwest.

HYACINTH CULTURE: For winter and spring blooming out of doors, the bulbs should be planted from 3 to 5 inches deep, according to the texture of the soil. The deepest planting is required in light sandy soil. Plant early in the Fall and spade into the ground a good supply of well rotted manure.

FOR POT CULTURE: Prepare the pots so they will drain well and use the best soil possible. Plant the bulbs about one inch below the surface, water thoroughly and put away in a dark cellar or bury them, pot and all, about eight inches below the surface in the garden. Let them stand about six or eight weeks and then bring them into the house a few at a time to have continual blooms throughout the season. During the growth in the house they should be well watered and kept near the light but direct sunlight should be avoided. A temperature of 60 to 75 degrees is suitable. Plant one bulb in a four-inch pot and three to five bulbs in a six or eight-inch pot.

HYACINTHS in GLASSES: A very interesting way to grow Hyacinth bulbs is in a Hyacinth glass made especially for that purpose. Fill the glass with clean water so that the water will touch the base of the bulb, place the glass and bulb in a dark cellar or closet until the roots have made considerable growth, being careful in the meantime to keep the glass filled with water to the base of the bulb, then bring to the light and keep in a cool place. A little charcoal added to the water will keep it cool and sweet.

SPECIAL SELECT HYACINTHS

LARGEST SIZE

This is the size used by the best florists to produce the largest and the most perfect flowers.

- Lady Derby—Large Rose Pink
- Enchantress—Porcelain Blue
- Roi des Belges—Brilliant Red
- General De Wet—Large Light Pink
- Grand Maitre—Deep Lavender Blue
- Gigantea—Beautiful Blush Pink
- Gertrude—Dark Pink
- King of the Yellows—Clear Yellow
- King of the Blues—Dark Blue
- L'Innocence—Pure White

20c Each, \$2.00 per Dozen,
\$15.00 per 100

DUTCH ROMAN HYACINTHS

These are especially adapted to pot culture, the flowers are smaller than those of the regular Hyacinths but are much earlier and can be easily forced into flower for Christmas. We have them in the following colors, Please specify "Dutch Romans" when ordering.

Pure White, Dark Red, Pink, Dark Blue, Light Blue and Yellow.

10c Each, \$1.00 per Dozen

SELECTED HYACINTHS

SECOND SIZE

This is the size ordinarily sold for the largest size. It is a good standard size and produces wonderful flowers.

- Cardinal Wiseman—Rosy Pink
 - Czar Peter—Beautiful Light Blue
 - Gen. Pelissier—Bright Red
 - Queen of the Blues—Lavender Blue
 - Beauty—Splendid Pink
 - Queen of the Pinks—Soft Rose
 - Rosy Gem—Deep Pink
 - City of Haarlam—Soft Yellow
 - Prince of Wales—Dark Blue
 - White Lady—Pure White
- 15c Ea., \$1.50 per Doz., \$10 per 100

BEDDING HYACINTHS

MEDIUM SIZE,
15 TO 16 CENTIMETERS

Excellent for bedding and borders.

Red, Pink, White, Light Blue, Dark Blue and Yellow.

\$1.00 per Dozen

HYACINTH GLASSES

Made especially for growing Hyacinths. Bulbs are easily grown in this manner and it is very interesting to watch them grow.

Tall, Each.....\$.40
Dwarf, Each.....\$.50

(Add 10c each when wanted by parcel post)

PAPER WHITE NARCISSUS

Ready September 1st

Everyone knows what the Paper White Narcissus is. As a quick-growing, "Sure-to-Bloom" bulb it has no equal. The flowers are pure white and very fragrant, produced on long, stiff stems. They can be forced into bloom in

from 6 to 8 weeks' time and by planting them at intervals of 4 weeks apart you will have a succession of blooms throughout the fall and winter season. As a gift nothing is more keenly appreciated than a bowl of Narcissus.

By following our cultural directions you cannot make a failure.

HOW TO GROW THEM

While the Paper White Narcissus can be grown in soil successfully, THE VERY BEST METHOD is to grow them in WATER. By so doing they will be in a container that is attractive in itself and all ready to place in an attractive location in the home. First place a half inch layer of our Bulb Grit on the bottom of bulb dish. Second, place bulbs in dish and fill with pebbles and water. The Bulb Grit will furnish a foundation for the roots. Then place in dark, cool cellar or closet for two or three weeks, or until the green shoots have attained a height of about five or six inches; then bring the dish to the light and look for the pretty blooms in a few weeks. A lover of plants will derive a great deal of pleasure by watching the developments of these bulbs. When first brought to the light the shoots will be almost white but will soon turn to a beautiful green. Great care should be exercised in keeping the bowl filled with water as the bulbs consume a great deal. Charcoal added to the water will keep it cool and sweet. When bulbs are brought to the light sprinkle Aquarium Grass Seed over the rocks and bulbs and beautiful green tufts of grass will result.

PAPER WHITE NARCISSUS

Each, 10c Dozen, \$1.00
Per 100, \$7.00

WE HANDLE THE LARGE SIZE IMPORTED BULBS ONLY

AQUARIUM GRASS SEED

A sprinkling of this grass seed over the top of the bulbs and pebbles will add the finishing touch to your lily bowl, with a soft green mat.

Per Pkt..... 10c

CHARCOAL

For keeping the water sweet and cool in Paper White or Chinese Lily Bowls.

Per Package..... 10c

BULB GRIT

1-Lb. Pkgs., 10c 2-Lb. Pkgs., 15c
(Postpaid only when bulbs are ordered)

PREPARED BULB FIBRE

The most satisfactory way of growing all Spring bulbs for house and table decoration. It is better than soil for bulbs and plants for indoor growing, and can be used in bowls, jardinières, fern dishes, etc., without drainage. By mail, postpaid—

1 Lb., 25c; 5 Lbs., \$1.00; 10 Lbs., \$1.85

All seed orders filled immediately. Our bulbs will reach us about October 15th. Bulb orders will be filled in strict rotation when our bulbs arrive; therefore we advise ordering early.

CHINESE SACRED LILY

These are wonderfully attractive as house ornaments and well deserving of a place in the home of every lover of plants. Chinese Lilies are usually grown in bowls of water. Put an inch of our Bulb Grit in the bowl in which they are to be grown, set the bulbs on the grit and then put enough grit and rocks around the bulbs to hold them solid. Fill the dish with water and set in a dark cellar or closet for a week or two, until the root action starts freely, then bring to the light and keep in an ordinary living room. They grow rapidly and produce very fragrant flowers; and you will have no trouble in producing a nice bowl of lilies for Christmas. Care should be taken to keep the bulbs supplied with fresh water. Our prepared charcoal added to the water will keep it cool and sweet, also a sprinkling of *Aquarium Grass Seed* over the bulbs and rocks will add very much to the appearance of the bowl with a bright mat of green. See page 2 for *Bulb Grit, Prepared Charcoal* and *Aquarium Grass Seed*. Our bulbs are of the very best quality, imported direct from China.

Each, 25c

5 for \$1.00

Dozes, \$2.25

Chinese Lilies should be grown in bowls that are slightly deeper than those used for the Paper White Narcissus as the bulbs are larger. We have the Chinese Lily Bowls in three sizes.

5-inch, 60c

6-inch, 90c

7-inch, \$1.10

Postpaid when ordered with Bulbs.

LILY BOWLS

MADE OF GLAZED POTTERY

Made especially for Chinese Lily Bulbs and Paper Whites. They are shallow, with turned edge, which prevents the bulbs from sliding or tipping over. These bowls are in green, blue and brown finish and very decorative. When they are not in use as a bulb dish they may be used as a flower holder. We have them in several sizes. The 5-inch will hold about four

Paper Whites, the 6-inch about nine Paper Whites or six Chinese Lilies, the 8-inch about fifteen Paper Whites, etc.

Price postpaid with an order of Bulbs.

TOKANABE LILY BOWLS, WITH CUT FLOWER HOLDER

These beautiful bowls are imported from Japan and are sure to please the most critical taste. The Holder is of the same material as the Bowl and when decorated with cut flowers makes a very attractive table ornament.

6-inch Bowl and Holder, complete.....	\$1.25 each
7-inch Bowl and Holder, complete.....	1.75 each
10-inch Bowl and Holder, complete.....	2.25 each
(Postpaid)	

Paper White Narcissus or Chinese Lily Bulbs planted in these beautiful Lily Bowls will make admirable prizes for card parties, and splendid gifts for Anniversaries and Holidays.

TULIPS

Tulips do very well in Arizona if you plant the right kind at the right time. The varieties listed here are well suited to Arizona conditions. Tulips have a great range of color, and a bed of showy tulips present a very striking appearance.

CULTURE

Plant the bulbs about 5 inches apart and about 4 inches deep. The best soil for tulips is old well-rotted manure, mixed with sand. Great care should be taken that water does not stand over or under the bulbs when planted out of doors as they will not thrive in soggy soil. When planted in pots plenty of drainage should be given. Tulips in pots should be treated the same as Hyacinths. (See pot culture for Hyacinths, page 1).

DARWIN TULIPS

The Darwin Tulip cannot be too highly praised. The remarkably brilliant color, their large size and their robust growth which carries the flower on long, strong stems make them unsurpassed as a desirable flower for cutting.

	Each	Doz.
Clara Butt—Lilac Rose, Salmon Tinted.....	.10	\$1.00

FREESIAS — PURITY

Ready Sept. 1st

We sell thousands of Freesias every season so we feel that most every flower lover knows just what this wonderful little flowering bulb is like. They are so graceful and their fragrance is so strong that a pot of 6 or a dozen plants will perfume the entire house. They are especially fine for cut flowers as all of the buds will open in water and will last a remarkably long time. The Freesia can be had in bloom by Christmas if planted early, and a continuance of bloom is maintained by planting at intervals. Unlike most other bulbs they should NOT be placed in the dark, but put directly in the light immediately after planting. In the Salt River Valley and similar climates they do very well planted out-of-doors.

Large Size Bulbs—5c each, 50c Dozen, \$3.50 per 100—Postpaid.

Daffodil, Large Trumpet

LARGE TRUMPET VARIETIES AS FOLLOWS:

Emperor—Beautiful Deep Yellow

Golden Spur—Rich Golden Yellow

Victoria—Gold Trumpet, with White Perianth

10c each; 1/2 Dozen, 55c; Dozen, \$1.00

DOUBLE DAFFODIL, OR VON ZION.

This is the wonderful double Daffodil that we all know so well. The flowers are a beautiful golden yellow color and very double. Excellent for forcing in pots and also for out-door culture. Our bulbs are Double Nose, which throw more flowers than the Single Nose type.

Each, 10c; 1/2 Dozen, 55c; Dozen, \$1.00

All seed orders filled immediately. Our bulbs will reach us about October 15th. Bulb orders will be filled in strict rotation when our bulbs arrive; therefore we advise ordering early.

DAFFODILS

Most everyone knows what a Daffodil is. We feel safe in saying there is no other bulb as hardy; by saying this we mean it will thrive in most any place, whether it be sunny or shady, moist or dry. All conditions seem to suit them, although they have a preference for a good deep soil and a semi-shaded location. They could be grown to great advantage by planting vacant corners in the garden, under trees and shrubs, etc. Please bear in mind that the Daffodils increase in number from year to year and bloom regularly each season. They are very desirable for pot culture for winter blooming. Plant two or three bulbs in a 5-inch pot and 5 or 6 bulbs in a 7- or 8-inch pot, in good soil, then put in a cool, dark place until sprouts attain a height of two or three inches. Our bulbs are of the best quality and the largest obtainable from our Holland Growers.

Daffodil, Von Zion, Double Nose

Jonquils

CROCUS

MAMMOTH FLOWERED NAMED VARIETIES

This old-fashioned bulb is so well known that it needs no description. They are grown extensively in pots and for bordering walks, lawns, etc. When grown in the open plant about two inches apart. The effect is beautiful and they are readily appreciated for their early blooms.

NARCISSUS

POETICUS ORNATUS

This variety of Narcissus blooms very early and profusely. The petals are pure white, while the cup is a clear yellow, margined with scarlet. It is fragrant with a rich spicy odor and excellent for both indoor and outdoor culture.

Each, 10c Doz., 75c Hundred, \$5.00

Aquarium Grass will add greatly to the appearance of a bowl of Narcissus or Chinese Lilies. See page 2.

All seed orders filled immediately. Our bulbs will reach us about October 15th. Bulb orders will be filled in strict rotation when our bulbs arrive; therefore we advise ordering early.

JONQUILS

No garden is complete without a few of the old-fashioned Jonquils. They are very fragrant and pure yellow in color. They make a wonderful showing when planted in solid beds and also excellent for borders. Plant about three inches apart and three inches deep in good soil. For pot culture plant about six in a 5-inch bulb pan and 12 in a 7-inch bulb pan. Use good soil with plenty of drainage, water well and bury out of doors or put in cool cellar until sprouted two or three inches high.

Each, 10c Dozen, 75c
Per 100, \$5.00

Narcissus, Poeticus Ornatus

OXALIS

WINTER FLOWERING VARIETIES

Oxalis should be planted early to get the best results. When planting outside select a partially shaded spot. For indoor culture they can be planted in pots, hanging baskets and window boxes. The pretty blooms, together with the heavy growth of drooping foliage, makes them very attractive for inside decoration. Our bulbs are of a "sure-to-bloom" quality.

Grand Duchess—Yellow.....	.35	2.50
Bermuda Buttercup—Yellow	.50	3.50

CANDIDUM or WHITE MADONNA LILY

This is a very hardy Lily for Fall planting. It thrives in most any soil but of course a good soil is preferable. They do excellent in beds or borders where the bulbs are not apt to be disturbed. Plant early in the Fall to a depth of about 6 inches. For pot culture plant bulbs about one inch under the surface of the soil and bury pot out of doors until sprouts attain a height of 2 or 3 inches.

Large Size Bulbs—
Each, 35c 3 for \$1.00 Doz., \$3.75

Candidum, or White Madonna Lily

Calla Lily

CALLA LILY

The Calla is one of the best winter flowering plants for house culture, as it needs little care beyond abundant water and an occasional washing of the leaves to keep them free from dust. The best soil for Callas is a mixture of one-fourth leaf mould and three-fourths good garden soil. Plant the bulb about one inch below the surface of the soil in a 4- or 5-inch pot or whatever size is necessary, owing to the size of the bulb or the number planted. Then place in cellar or dark closet for three or four weeks. When the bulb starts growing bring to the light and be sure to give it plenty of water. Callas do better planted in the Fall months. Also remember that in climates no colder than the Salt River Valley they can be grown successfully out of doors.

WHITE CALLA: Medium Size Bulb—
Each, 20c 6 for \$1.00 Dozen, \$1.75
Large Size Bulb—
Each, 35c 3 for 95c 6 for \$1.60 Doz., \$3.00

All seed orders filled immediately. Our bulbs will reach us about October 15th. Bulb orders will be filled in strict rotation when our bulbs arrive; therefore we advise ordering early.

Amaryllis Belladonna

AMARYLLIS BELLA DONNA

A strikingly beautiful flower of immense size held on long stiff stems. The color is white, shaded with pink and light purple hues. As a rule they flower before the leaves appear and are very fragrant.

Very Large Bulbs—

Each, 35c 3 for \$1.00 Dozen, \$3.00

GLADIOLUS

The Gladiolus are the most attractive and useful for cut flowers of all the Spring flowering bulbs. Our bulbs are ready in November and should be planted during the Winter months. Our bulbs are very select and sure to please.

RANUNCULUS

The Ranunculus is one of our most attractive and beautiful flowers. Growing in beds, as borders, or as cut flowers, they always arouse admiration. Soak the roots for two hours, then plant claws downward in sandy soil, which has been enriched with rotted manure. They should be planted six to eight inches apart and covered to a depth of two inches. We have been fortunate in securing some of the real double Turban Ranunculus.

Giant French Double Mixed—
75c Dozen; \$5.50 per 100

ANEMONE

Should be planted during the Fall and Winter in slightly raised beds. The bulbs should be soaked in water before planting. The pointed extensions on these bulbs should be placed downward. Plant 1½ inches deep and five to six inches apart. These single poppy-like flowers include a great variety of colors: red, pink, blue, white, scarlet, bronze, etc.

Giant Mixed— 10c Each; \$1.00 Dozen

WE ARE HEADQUARTERS FOR SPRAY PUMPS AND INSECTICIDES

All seed orders filled immediately. Our Bulbs will reach us about October 15th. Bulb orders will be filled in strict rotation when our bulbs arrive; therefore we advise ordering early.

PLANT A FALL GARDEN

Many of our new customers do not realize what wonderful garden crops can be grown in Arizona, and similar climates, during the FALL and WINTER season. To derive the most benefit from your garden tract, we strongly advise you to plant a garden in the Fall as well as in the Spring. While you are working the soil for the Fall garden you are keeping it in readiness for Spring planting. We also believe you will find it very profitable when you consider what a material difference it makes on the up-keep of your table.

BEET —Betabel o Remolacha C A B B A G E—Col-Repollo

Beets will grow all winter where temperature does not drop below 25 degrees. Sow seed one inch deep in moist soil in rows 10 inches apart or on ridges. Use one ounce to 50 feet of row or drill 8 pounds per acre. Thin out to three inches apart and cultivate after each irrigation.

LETTUCE--"Arizona Wonderful"

This is, without question, the LEADING HEAD LETTUCE on the market, and we have had no end of praise from our many friends who have grown it.

The LARGE, CRISP, TIGHT heads are of the finest quality, weighing on an average of TWO POUNDS each. Plant this truly WONDERFUL Lettuce in your garden.

We supply hundreds of pounds of this lettuce to growers who make a business of shipping to the Eastern markets in carload lots. This class of trade demands the BEST and the most reliable TRUE-TO-TYPE seed. Our repeat business from this source proves our seed to be of superior quality.

(Pkt. 10c.), (Oz. 30c.), ($\frac{1}{4}$ Lb. \$1.00), (Lb. \$3.00), Postpaid

LETTUCE—Lechuga

One-half ounce seed required for 100 ft. row. Lettuce is best suited to a light, rich, loamy soil. Irrigate throughout the entire growing season except during rainy weather. Plant on ridges 6 inches high and 18 inches wide. Large

headed varieties, such as Arizona Wonderful, should be given at least a 12-inch growing space. In irrigating great care must be taken so as not to flood the heads. Plant in September on through the Winter and Spring season.

Book FREE
Tells just HOW

ODORLESS—CLEAN—EFFICIENT

A 25-pound bag covers a lawn space of 1200 square feet. Lasts a year or more.

A tablespoonful to hill of potatoes, tomatoes or ordinary rose bush means abundant flowers, crisp and early vegetables.

A teaspoonful for 6- to 8-inch potted plant. Ferns love it.

(2-lb. pkg., 50c)
(25 lbs. in cotton bag, \$3.00)

The intelligent use of Fertilizers and soil cultures will aid materially in the quality and productiveness of all vegetables and flowers.

GROMORE FERTILIZER—Makes Sweet Peas magnificent in color and abundance of flowers; also works wonders with all kinds of flowers, vegetables, trees, shrubs, roses and bulbs. As a lawn fertilizer it has no equal. Use 2 pounds to 75 feet of row.
2-Lb. Package GROMORE, 50c; 25-Lb. Bag GROMORE, \$3.00. Postage extra.

INOCULATE YOUR SWEET PEA SEED—Sweet Peas belong to the Legume or Pod-bearing family of plants, which nature has endowed with the wonderful ability to harbor and nurture certain bacteria on their roots, and these bacteria in turn gather nitrogen from the air and feed it to the plant itself. Increased nitrogen supplied to the plant means a material increase in the size of the flowers and foliage.

You will not regret treating your Sweet Peas with Mulford Mixture before planting. It is very easy to use; simply add water and moisten seeds with the mixture.

MULFORD CULTURE for Sweet Peas. Garden size, each, 50c.

We also carry **MULFORD MIXTURE** for Garden Peas and Beans, Alfalfa, Sweet Clover, Sour Clover, Vetch, etc.

NITRATE OF SODA—Contains about 15 per cent nitrogen. It is a very quick acting fertilizer and best applied after plants are growing. Successfully used in forcing large flowers and beautiful green foliage. Apply in liquid form at the rate of ½ ounce to 1 gallon of water.
Nitrate of Soda, per Lb., 15c; 10 Lbs., \$1.25.

BONE MEAL FERTILIZER—Per Lb., 10c; 5 Lbs., 50c; 10 Lbs., 80c; \$6.00 per Cwt.

BLOOD MEAL FERTILIZER—Per Lb., 15c; 5 Lbs., 65c; 10 Lbs., \$1.25; \$10.00 per Cwt.

AIR SLACKED LIME—Used to correct any acid conditions existing in the soil.
1 Lb., 10c; 5 Lbs., 30c; 10 Lbs., 50c.

Add postage to above prices on Fertilizer when wanted by Parcel Post.

FLOWER SEED

FOR FALL AND WINTER PLANTING

Beautify your home with flowers. All flower seed listed below may be planted during the Fall and Winter months. Great care should be taken not to plant too deeply. Medium sized seed should be planted about one-half inch deep and very small seed should be planted on the surface and lightly covered with sand or pulverized manure. A light mulch or a layer of burlap over the seed bed will hold the moisture and hasten germination. If burlap is used it must be removed as soon as sprouts appear above the ground.

GIANT SPENCER SWEET PEAS

The new and improved strains of Sweet Peas make their culture a pleasure indeed, and those failing to plant will only regret it when blooming time comes. They are of easy culture and no garden is complete without them.

Select your space in the open, where the vines may be trained on a trellis, and dig a trench about two feet wide and eighteen inches deep. Put about three inches of well-rotted barnyard manure in the bottom of the trench, mix a sprinkle of manure and commercial fertilizer with the dirt that has been removed and replace it. Open a trench across the bed about six inches deep and plant one ounce of seed to 15 feet of drill in the bottom of it, covering the seed about one-half inch. Now fill this last trench with water and soak thoroughly, following with a sprinkle of fine manure to prevent the surface crusting.

After the peas are up eight or ten inches begin to draw the dirt to them, gradually filling the planted trench and opening another trench about ten inches from the row through which to water them the rest of the season.

Frequent cultivation is very necessary, and after the peas are 12 to 15 inches high a mulch of fine manure should be applied to the entire bed and gradually worked into the soil. Keep them well watered, and at blooming time they should be cut each day to insure a long blooming period.

ASK FOR OUR BOOKLET ENTITLED, "SWEET PEA CULTURE"

APPLE BLOSSOM

Rose and White Flushed. (Pkt. 10c), (oz. 40c), (¼ lb., \$1.50).

ASTA OHN

Beautiful soft Lavender, suffused Mauve. (Pkt. 10c), (oz. 40c), (¼ lb. \$1.50).

BLANCHE FERRY SPENCER

The standard is Bright Rose, the wings pinkish or bluish white. (Pkt. 10c), (oz. 40c), (¼ lb. \$1.50).

COUNTESS SPENCER

A soft Rose Pink, which deepens at the outer edges. It shows a richer color in cool weather. (Pkt. 10c), (oz. 50c), (¼ lb. \$1.75).

DOBBIES CREAM

A deep Cream, undoubtedly the best Cream Spencer grown, beautifully waved large flowers. (Pkt. 10c), (oz. 50c), (¼ lb. \$1.75).

ELFRIDA PEARSON

Giant Blush Pink, a great favorite. The color is a lovely Pink thro' out, the buds and flowers being tinted with Salmon Pink. (Pkt. 10c), (oz. 40c), (¼ lb. \$1.50).

FLORENCE MORSE SPENCER

Deep Blush Pink. (Pkt. 10c), (oz. 40c), (¼ lb. \$1.50).

FLORENCE NIGHTINGALE

A soft, clear, rich Lavender, enlivened by a very faint sheen of Rose Pink. (Pkt. 10c), (oz. 50c), (¼ lb. \$1.75).

HELEN LEWIS

A very large Orange Pink. The wings are of orange and the standard of intense rich crimson orange. (Pkt. 10c), (oz. 50c), (¼ lb. \$1.75).

KING EDWARD SPENCER

The best Red Sweet Pea grown; deep rich carmine scarlet. The wings are also carmine scarlet and on reverse side deep rosy carmine. (Pkt. 10c), (oz. 50c), (¼ lb. \$1.75).

MARGARET ATLEE

A rich glowing Pink on cream ground, suffused with salmon in the standard, while the wings are a pleasing shade of pinkish rose and salmon. The flowers are very large, producing four on a long stem. (Pkt. 10c), (oz. 40c), (¼ lb. \$1.75).

MRS. ROUTZAHN

Buff or Apricot, with delicate pink. Plants are of vigorous, free habit and of supremely free flowering habit. (Pkt. 10c), (oz. 40c), (¼ lb. \$1.50).

MASTRPIECE

Large, wavy, Lavender-tinted Mauve. (Pkt. 20c), (oz. 60c), (¼ lb. \$2.00).

OTHELLO

Deep Maroon, very large. (Pkt. 10c), (oz. 40c), (¼ lb. \$1.50).

FROM

THE AUSTIN NURSERY

F. T. RAMSEY & SON

AUSTIN, TEXAS

GIANT SPENCER SWEET PEAS

ROSABELLE

A beautiful deep Rose with white blotch at the base of the standard and wings. The flowers are unusually large, of fine substance and well placed on long stems. (Pkt. 10c), (oz. 50c), (¼ lb. \$1.75).

ROYAL PURPLE

A rich, warm Purple; what we consider the best purple for our climatic conditions. (Pkt. 20c), (oz. 60c), (¼ lb. \$2.00).

WEDGEWOOD

The best Blue Spencer. A unique shade of lovely blue. (Pkt. 10c), (oz. 50c), (¼ lb. \$1.75).

WHITE SPENCER

A perfect flower of glistening whiteness, a superior strain of the finest Spencer. (Pkt. 10c), (oz. 40c), (¼ lb. \$1.50).

PRESIDENT

Flowers are of the largest size, carried on strong, stiff stems, usually in fours. Brilliant Scarlet in color. (Pkt. 25c), (oz. 75c), (¼ lb. \$2.50).

ARIZONA SUNPROOF CRIMSON

A wonderful Crimson Sweet Pea of a very striking appearance. The name Sunproof is self-explanatory, as the hot sun has no effect on its rich, warm colors. It produces large flowers on long, stiff stems. (Pkt. 20c), (oz. 60c), (¼ lb. \$2.00).

SPENCER MIXED

This mixture contains the cream of the very finest named Spencer varieties and will delight all who want a grand variety of colors. (Pkt. 10c), (oz. 35c), (¼ lb. \$1.25).

CHRISTMAS FLOWERING SWEET PEAS IN NAMED VARIETIES

Our Christmas Flowering Early Spencer Sweet Peas are among the best for fragrance, size and beauty, and varieties as listed here are particularly adapted to our climatic conditions. Planted in September and October, they can be brought into flower in January; thus making it a grand addition to the garden of those wishing flowers early and late.

Our Christmas Flowering Spencer Sweet Peas, so called because they bloom earlier than the regular Spencer varieties, are of the newest and most up-to-date creations in Sweet Peas, and not to be confused with the ORDINARY so-called Christmas Flowering Sweet Peas which are put on the market at a much cheaper price. The ordinary kind is a small flowering type with short stems, while the Christmas Flowering Spencer produces a very large flower supported on long, stiff stems.

EARLY LIBERTY, CHRISTMAS CRIMSON—Nothing yet introduced has approached this deep sun-proof crimson or blood red. The vines are vigorous and bear quantities of fine large flowers. (Pkt. 25c), (oz. 75c), (¼ lb. \$2.25).

EARLY MEADOW LARK, CHRISTMAS CREAM—A deep, rich Cream. Many of the flowers are duplex and well waved. (Pkt. 25c), (oz. 75c), (¼ lb. \$2.25).

EARLY MELODY, CHRISTMAS PINK—A deep shade of Pink closely resembling Countess Spencer. The flowers are borne on long stems and mostly four large, well-waved blossoms on each stem. (Pkt. 25c), (oz. 75c), (¼ lb. \$2.25).

EARLY SONGSTER, CHRISTMAS LAVENDER—A splendid giant Lavender. Three or four flowers of large size and beauty on each stem. (Pkt. 25c), (oz. 75c), (¼ lb. \$2.25).

EARLY WARBLER, CHRISTMAS PURPLE—A rich Mauve Purple. Flowers are extra large and beautiful in form. (Pkt. 25c), (oz. 75c), (¼ lb. \$2.25).

EARLY YARRAWA, CHRISTMAS APPLE BLOSSOM—The color is a bright Rose Pink with a clear, creamy base. The flowers average 2½ inches in diameter and many are duplex or double. (Pkt. 25c), (oz. 75c), (¼ lb. \$2.25).

Sweet Pea Collection No. 6

\$1.25—7 25c Packets Christmas Flowering Sweet Peas—Full Value \$1.75 for \$1.25, postpaid. Specify Collection No. 6.

We have a full carload of high germinating quality seed to meet your requirements for this season. You will be assured of A **SPLENDID GREEN LAWN** by placing your orders with us.

WINTER LAWN—CAPITOL BUILDING, PHOENIX, ARIZONA

HOW TO PLANT A LAWN

Level the ground carefully, pulverizing all lumps and removing all stones. Enrich with Gro-more Fertilizer at the rate of one pound to 20x20 and rake it in. Scatter the seed evenly over the surface at the rate of two pounds to 10x10 for Australian Rye, one pound to 10x20 for Blue Grass and one pound to 500 square feet for Bermuda Grass, then apply a mulch of sand or well rotted fine manure. Water carefully and regularly, not allowing the surface to dry out until the grass is up. In the Salt River Valley and similar climates, Australian Rye Grass should be planted from September 15 to March 1 and Bermuda Grass during the Summer months.

LAWN GRASSES

If Desired Sent by Parcel Post Add Necessary Postage. See Parcel Post Schedule Inside Page of Front Cover.

AUSTRALIAN RYE GRASS

This is the most popular grass in the Southwest for a Winter lawn. Plant two pounds to 10x10 feet, from September 15th throughout the Winter. Prepare a fine seed bed, sow the seed and rake in very lightly, and then spread a thin mulch of fine decomposed manure over the surface. Keep well-watered with a fine spray.

AUSTRALIAN RYE GRASS—1 Lb., 25c; 10 Lbs., \$2.25; 25 Lbs., \$5.00; 50 Lbs. or more at 18c per Lb.

WHITE CLOVER

Strictly first-class seed, clean and pure of the highest quality. Used for a mixture in the Fall and Winter lawn. Plant one pound to 2000 square feet.

WHITE CLOVER—Per Lb., \$1.00; 10 Lbs., \$9.00

BERMUDA GRASS

Selected from our very best fields and thoroughly re-cleaned. Requires three weeks under favorable conditions to germinate. A light mulch of pulverized manure and frequent watering will greatly aid germination. Plant one lb. to 500 square feet.

BERMUDA GRASS—Per Lb., 60c; 10 Lbs., \$5.00.

KENTUCKY BLUE GRASS

A suitable lawn for the higher altitudes and mountain districts of the Southwest; also used in warmer sections for Winter lawns. Sow one pound to 200 square feet.

KENTUCKY BLUE GRASS—Per Lb., 60c; 10 Lbs., \$5.00.

WE CARRY A FULL LINE OF LAWN SUPPLIES.
